

***IBM 4230 Matrix Printer  
Heavy Duty Desktop Printing  
Twinax or Coax***

A low-cost, heavy-duty workhorse, the 4230 family of serial matrix printers provides a wide range of printer placement options. It brings the ease-of-use and productivity advantages usually provided by higher-speed system printers down to the workstation environment.

- Speed: up to 600 cps
- Continuous forms, cut sheet, automatic sheet feed and document on demand available
- Up to six-part forms
- Easy-to-use LCD operator panel, autoloader, auto forms thickness adjustment
- Supports popular datastreams IPDS, SCS, IBM Proprinter and Epson(r) FX
- Quiet as some laser printers: 53 dBA

**Highlights**

- Low cost, heavy-duty dot matrix printing solution
- Flexible forms handling capabilities
- Very quiet for office use  
Superb reliability
